What Has Gone Before

The Chronicles of Thomas Covenant the Unbeliever

As a young man—a novelist, happily married, with an infant son, Roger—Thomas Covenant is inexplicably stricken with leprosy. In a leprosarium, where the last two fingers of his right hand are amputated, he learns that leprosy is incurable. As it progresses, it produces numbness, often killing its victims by leaving them unaware of injuries which have become infected. Medications arrest the progress of Covenant’s affliction; but he is taught that his only real hope of survival lies in protecting himself obsessively from any form of damage.

Horrified by his illness, he returns to his home on Haven Farm, where his wife, Joan, has abandoned and divorced him in order to protect their son from exposure.

Other blows to his emotional stability follow. Fearing the mysterious nature of his illness, the people around him cast him in the traditional role of the leper: a pariah, outcast and unclean. In addition, he discovers that he has become impotent—and unable to write. Grimly he struggles to go on living; but as the pressure of his loneliness mounts, he begins to experience prolonged episodes of unconsciousness, during which he appears to have adventures in a magical realm known only as “the Land.”

In the Land, physical and emotional health are tangible forces, made palpable by an eldritch energy called Earthpower. Because vitality and beauty are concrete qualities, as plain to the senses as size and color, the well-being of the physical world has become the guiding precept of the Land’s people. When Covenant first encounters them, in *Lord Foul’s Bane*, they greet him as the reincarnation of an ancient hero, Berek Halfhand, because he has lost half of his hand. Also he possesses a white gold ring—his wedding band—which they know to be a talisman of great power, able to wield “the wild magic that destroys peace.”

Shortly after he first appears in the Land, Covenant’s leprosy and impotence disappear, cured by Earthpower; and this, he knows, is impossible. And the mere idea

that he possesses some form of magical power threatens his ability to sustain the stubborn disciplines on which his survival depends. Therefore he chooses to interpret his translation to the Land as a dream or hallucination. He responds to his welcome and health with Unbelief: the harsh, dogged assertion that the Land is not real.

Because of his Unbelief, his initial reactions to the people and wonders of the Land are at best dismissive, at worst despicable (at one point, overwhelmed by his reborn sexuality, he rapes Lena, a young girl who has befriended him). However, the people of the Land decline to punish or reject him for his actions: as Berek Halfhand reborn, he is beyond judgment. And there is an ancient prophecy concerning the white gold wielder: “With the one word of truth or treachery, / he will save or damn the Earth.” Covenant’s new companions in the Land know that they cannot make his choices for him. They can only hope that he will eventually follow Berek’s example by saving the Land.

At first, such forbearance conveys little to Covenant, although he cannot deny that he is moved by the ineffable beauties of this world, as well as by the kindness of its people. During his travels, however, first with Lena’s mother, Atiaran, then with the Giant Salheart Foamfollower, and finally with the Lords of Revelstone, he learns enough of the history of the Land to understand what is at stake.

The Land has an ancient enemy, Lord Foul the Despiser, who dreams of destroying the Arch of Time—thereby destroying not only the Land but the entire Earth—in order to escape what he perceives to be a prison. Against this evil stands the Council of Lords, men and women who have dedicated their lives to nurturing the health of the Land, to studying the lost lore and wisdom of Berek and his long-dead descendants, and to opposing Despite.

Unfortunately these Lords possess only a small fraction of the power of their predecessors. The Staff of Law, Berek’s primary instrument of Earthpower, has been hidden from them. And the lore of Law and Earthpower seems inherently inadequate to defeat Lord Foul. Wild magic rather than Law is the crux of Time. Without it, the Arch cannot be destroyed; but neither can it be defended.

Hence both the Lords and the Despiser seek Thomas Covenant’s allegiance. The Lords attempt to win his aid with courage and compassion: the Despiser, through manipulation. And in this contest Covenant’s Unbelief appears to place him on the side of the Despiser.

Nevertheless Covenant cannot deny his response to the Land’s apparent transcendence. And as he is granted more and more friendship by the Lords and denizens of the Land, he finds that he is now dismayed by his earlier violence toward Lena. He faces an insoluble conundrum: the Land cannot be real, yet it feels entirely real. His heart responds to its loveliness—and that response has the potential to kill him because it undermines his necessary habits of wariness and hopelessness.

Trapped within this contradiction, he attempts to escape through a series of

unspoken bargains. In *Lord Foul's Bane*, he grants the Lords his passive support, hoping that this will enable him to avoid accepting the possibilities—the responsibilities—of his white gold ring. And at first his hopes are realized. The Lords find the lost Staff of Law; their immediate enemy, one of Lord Foul's servants, is defeated; and Covenant himself is released from the Land.

Back in his real world, however, he discovers that he has in fact gained nothing. Indeed, his plight has worsened: he remains a leper, and his experience of friendship and magic in the Land has weakened his ability to endure his outcast loneliness on Haven Farm. When he is translated to the Land a second time, in *The Illearth War*, he knows that he must devise a new bargain.

During his absence, the Land's plight has worsened as well. Decades have passed in the Land; and in that time Lord Foul has gained and mastered the Illearth Stone, an ancient bane of staggering power. With it, the Despiser has created an army which now marches to overwhelm the Lords of Revelstone. Although the Lords hold the Staff of Law, they lack sufficient might to withstand the evil horde. They need the strength of wild magic.

Other developments also tighten the grip of Covenant's dilemma. The Council is now led by High Lord Elena, his daughter by his rape of Lena. With her, he begins to experience the real consequences of his violence: it is clear to him—if to no one else—that she is not completely sane. In addition, the army of the Lords is led by a man named Hile Troy, who appears to have come to the Land from Covenant's own world. Troy's presence radically erodes Covenant's self-protective Unbelief.

Now more than ever Covenant feels that he must resolve his conundrum. Again he posits a bargain. He will give the defenders of the Land his active support. Specifically, he will join Elena on a quest to discover the source of EarthBlood, the most concentrated form of Earthpower. But in return he will continue to deny that his ring holds any power. He will accept no responsibility for the ultimate fate of the Land.

This time, however, the results of his bargain are disastrous. Using the Illearth Stone, Lord Foul slaughters the Giants of Seareach. Hile Troy is only able to defeat the Despiser's army by giving his soul to Caerrol Wildwood, the Forestal of Garroting Deep. And Covenant's help enables Elena to find the EarthBlood, which she uses to sever one of the necessary boundaries between life and death. Her instability leads her to think that the dead will have more power against Lord Foul than the living. But she is terribly wrong; and in the resulting catastrophe both she and the Staff of Law are lost.

Covenant returns to his real world knowing that his attempts to resolve his dilemma have served the Despiser.

Nearly broken by his failures, he visits the Land once more in *The Power That Preserves*, where he discovers the full cost of his actions. Dead, his daughter now

serves Lord Foul, using the Staff of Law to wreak havoc. Her mother, Lena, has lost her mind. And the defenders of the Land are besieged by an army too vast and powerful to be defeated.

Covenant still has no solution to his conundrum: only wild magic can save the Land—and he cannot afford to accept its reality. However, sickened at heart by Lena’s madness, and by the imminent ruin of the Land, he resolves to confront the Despiser himself. He has no hope of defeating Lord Foul, but he would rather sacrifice himself for the sake of a magical, but unreal, place than preserve his outcast life in his real world.

Before he can reach the Despiser, however, he must first face dead Elena and the Staff of Law. He cannot oppose her; yet she defeats herself when her attack on him draws an overwhelming response from his ring—a response which also destroys the Staff.

Accompanied only by his old friend, the Giant Saltheart Foamfollower, Covenant finally gains his confrontation with Lord Foul and the Illearth Stone. Facing the full force of the Despiser’s savagery and malice, he at last finds the solution to his conundrum, “the eye of the paradox”: the point of balance between accepting that the Land is real and insisting that it is not. On that basis, he is able to combat Lord Foul by using the dire might of the Illearth Stone to trigger the wild magic of his ring. With that power, he shatters both the Stone and Lord Foul’s home, thereby ending the threat of the Despiser’s evil.

When he returns to his own world for the last time, he learns that his newfound balance benefits him there as well. He knows now that the reality or unreality of the Land is less important than his love for it; and that knowledge gives him the strength to face his life as a pariah without fear or bitterness.

The Second Chronicles of Thomas Covenant

For ten years after the events of *The Power That Preserves*, Covenant lives alone on Haven Farm, writing novels. He is still an outcast, but he has one friend, Dr. Julius Berenford. Then, however, two damaged women enter his life.

His ex-wife, Joan, returns to him, violently insane. Leaving Roger with her parents, she has spent some time in a commune which has dedicated itself to the service of Despite, and which has chosen Covenant to be the victim of its evil. Hoping to spare anyone else the hazards of involvement, Covenant attempts to care for Joan alone.

When Covenant refuses aid, Dr. Berenford enlists Dr. Linden Avery, a young physician whom he has recently hired. Like Joan, she has been badly hurt, although in entirely different ways. As a young girl, she was locked in a room with her father

while he committed suicide. And as a teenager, she killed her mother, an act of euthanasia to which she felt compelled by her mother's illness and pain. Loathing death, Linden has become a doctor in a haunted attempt to erase her past.

At Dr. Berenford's urging, she intrudes on Covenant's treatment of his ex-wife. When members of Joan's commune attack Haven Farm, seeking Covenant's death, Linden attempts to intervene, but she is struck down before she can save him. As a result, she accompanies him when he is returned to the Land.

During Covenant's absence, several thousand years have passed, and the Despiser has regained his power. As before, he seeks to use Covenant's wild magic in order to break the Arch of Time and escape his prison. In *The Wounded Land*, however, Covenant and Linden soon learn that Lord Foul has fundamentally altered his methods. Instead of relying on armies and warfare to goad Covenant, the Despiser has devised an attack on the natural Law which gives the Land its beauty and health.

The overt form of this attack is the Sunbane, a malefic corona around the sun which produces extravagant surges of fertility, rain, drought, and pestilence in mad succession. So great is the Sunbane's power and destructiveness that it has come to dominate all life in the Land. Yet the Sunbane is not what it appears to be. And its organic virulence serves primarily to mask Lord Foul's deeper manipulations.

He has spent centuries corrupting the Council of Lords. That group now rules over the Land as the Clave; and it is led by a Raver, one of the Despiser's most ancient and potent servants. The Clave extracts blood from the people of the Land to feed the Banefire, an enormous blaze which purportedly hinders the Sunbane, but which actually increases it.

However, the hidden purpose of the Clave and the Banefire is to inspire from Covenant an excessive exertion of wild magic. And toward that end, another Raver afflicts Covenant with a venom intended to cripple his control over his power. When the venom has done its work, Covenant will be unable to defend the Land without unleashing so much force that he destroys the Arch.

As for Linden Avery, Lord Foul intends to use her loathing of death against her. She alone is gifted or cursed with the health-sense which once informed and guided all the people of the Land by enabling them to perceive physical and emotional health directly. For that reason, she is uniquely vulnerable to the malevolence of the Sunbane, as well as to the insatiable malice of the Ravers. The manifest evil into which she has been plunged threatens the core of her identity.

Linden's health-sense accentuates her potential as a healer. However, it also gives her the capacity to possess other people; to reach so deeply into them that she can control their actions. By this means, Lord Foul intends to cripple her morally: he seeks to transform her into a woman who will possess Covenant in order to misuse his power. Thus she will give the Despiser what he wants even if Covenant does not.

And if those ploys fail, Lord Foul has other stratagems in place to achieve his ends.

Horrified in their separate ways by what has been done to the Land, Covenant and Linden wish to confront the Clave in Revelstone; but on their own, they cannot survive the complex perils of the Sunbane. Fortunately they gain the help of two villagers, Sunder and Hollian. Sunder and Hollian have lived with the Sunbane all their lives, and their experience enables Covenant and Linden to avoid ruin as they travel.

But Linden, Sunder, and Hollian are separated from Covenant near a region known as Andelain, captured by the Clave while he enters Andelain alone. It was once the most beautiful and Earthpowerful place in the Land; and he now discovers that it alone remains intact, defended from the Sunbane by the last Forestal, Caer-Caveral, who was formerly Hile Troy. There Covenant encounters his Dead, the spectres of his long-gone friends. They offer him advice and guidance for the struggle ahead. And they give him a gift: a strange ebony creature named Vain, an artificial being created for a hidden purpose by ur-viles, former servants of the Despiser.

Aided by Waynhim, benign relatives—and ancient enemies—of the ur-viles, Covenant hastens toward Revelstone to rescue his friends. When he encounters the Clave, he learns the cruelest secret of the Sunbane: it was made possible by his destruction of the Staff of Law thousands of years ago. Desperate to undo the harm which he has unwittingly caused, he risks wild magic in order to free Linden, Sunder, and Hollian, as well as a number of *Haruchai*, powerful warriors who at one time served the Council of Lords.

With his friends, Vain, and a small group of *Haruchai*, Covenant sets out to locate the One Tree, the wood from which Berek originally fashioned the Staff of Law. Covenant hopes to devise a new Staff with which to oppose the Clave and the Sunbane.

Traveling eastward, toward the Sunbirth Sea, Covenant and his companions encounter a party of Giants, seafaring beings from the homeland of the lost Giants of Seareach. One of them, Cable Seadreamer, has had a vision of a terrible threat to the Earth, and the Giants have sent out a Search to discover the danger.

Convinced that this threat is the Sunbane, Covenant persuades the Search to help him find the One Tree; and in *The One Tree*, Covenant, Linden, Vain, and several *Haruchai* set sail aboard the Giantship Starfare's Gem, leaving Sunder and Hollian to rally the people of the Land against the Clave.

The quest for the One Tree takes Covenant and Linden first to the land of the *Elohim*, cryptic beings of pure Earthpower who appear to understand and perhaps control the destiny of the Earth. The *Elohim* agree to reveal the location of the One Tree, but they exact a price: they cripple Covenant's mind, enclosing his consciousness in a kind of stasis, purportedly to protect the Earth from his growing power, but in fact

to prevent him from carrying out Vain's unnamed purpose. Guided now by Linden's determination rather than Covenant's, the Search sets sail for the Isle of the One Tree.

Unexpectedly, however, they are joined by one of the *Elohim*, Findail, who has been Appointed to bear the consequences if Vain's purpose does not fail.

Linden soon finds that she is unable to free Covenant's mind without possessing him, which she fears to do, knowing that she may unleash his power. When events force her to a decision, however, she succeeds at restoring his consciousness—much to Findail's dismay.

At last, Starfare's Gem reaches the Isle of the One Tree, where one of the *Haruchai*, Brinn, succeeds at replacing the Tree's Guardian. But when Covenant, Linden, and their companions approach their goal, they learn that they have been misled by the Despiser—and by the *Elohim*. Covenant's attempt to obtain wood for a new Staff of Law begins to rouse the Worm of the World's End. Once awakened, the Worm will accomplish Lord Foul's release from Time.

At the cost of his own life, Seadreamer succeeds at making Linden aware of the true danger. She in turn is able to forestall Covenant. Nevertheless the Worm has been disturbed, and its restlessness forces the Search to flee as the Isle sinks into the sea, taking the One Tree beyond reach.

Defeated, the Search sets course for the Land in *White Gold Wielder*. Covenant now believes that he has no alternative except to confront the Clave directly, to quench the Banefire, and then to battle the Despiser; and Linden is determined to aid him, in part because she has come to love him, and in part because she fears his unchecked wild magic.

With great difficulty, they eventually reach Revelstone, where they are rejoined by Sunder, Hollian, and several *Haruchai*. Together the Land's few defenders give battle to the Clave. After a fierce struggle, the companions corner the Raver which commands the Clave. There Seadreamer's brother, Grimmand Honninscrave, sacrifices his life in order to make possible the "rending" of the Raver. Then Covenant flings himself into the Banefire, using its dark theurgy to transform the venom in his veins so that he can quench the Banefire without threatening the Arch. The Sunbane remains, but its evil no longer grows.

When the Clave has been dispersed, and Revelstone has been cleansed, Covenant and Linden turn toward Mount Thunder, where they believe that they will find the Despiser. As they travel, still followed by Vain and Findail, Linden's fears mount. She realizes that Covenant does not mean to fight Lord Foul. That contest, Covenant believes, will unleash enough force to destroy Time. Afraid that he will surrender to the Despiser, Linden prepares herself to possess him again, although she now understands that possession is a greater evil than death.

Yet when she and Covenant finally face Lord Foul, deep within the Wightwarrens

of Mount Thunder, she is possessed herself by a Raver; and her efforts to win free of that dark spirit's control leave her unwilling to interfere with Covenant's choices. As she has feared, he does surrender, giving Lord Foul his ring. But when the Despiser turns wild magic against Covenant, slaying his body, the altered venom is burned out of Covenant's spirit, and he becomes a being of pure wild magic, able to sustain the Arch despite the fury of Lord Foul's attacks. Eventually the Despiser expends so much of his own essence that he effectively defeats himself; and Covenant's ring falls to Linden.

Meanwhile, she has gleaned an understanding of Vain's purpose—and of Findail's Appointed role. Vain is pure structure: Findail, pure fluidity. Using Covenant's ring, Linden melds the two beings into a new Staff of Law. Then, guided by her health-sense and her physician's instincts, she reaches out with the restored power of Law to erase the Sunbane and begin the healing of the Land.

When she is done, Linden fades from the Land and returns to her own world, where she finds that Covenant is indeed dead. Yet she now holds his wedding ring. And when Dr. Berenford comes looking for her, she discovers that her time with Covenant and her own victories have transformed her. She is now truly Linden Avery the Chosen, as she was called in the Land: she can choose to live her old life in an entirely new way.

The Last Chronicles of Thomas Covenant

In Book One, *The Runes of the Earth*, ten years have passed for Linden Avery; and in that time, her life has changed. She has adopted a son, Jeremiah, now fifteen, who was horribly damaged during her first translation to the Land, losing half of his right hand and—apparently—all ordinary use of his mind. He displays a peculiar genius: he is able to build astonishing structures out of such toys as Tinkertoys and Legos. But in every other way, he is entirely unreactive. Nonetheless Linden is devoted to him, giving him all of her frustrated love for Thomas Covenant and the Land.

In addition, she has become the Chief Medical Officer of a local psychiatric hospital, where Covenant's ex-wife, Joan, is now a patient. For a time, Joan's condition resembles a vegetative catatonia. But then she starts to punish herself, punching her temple incessantly in an apparent effort to bring about her own death. Only the restoration of her white gold wedding band calms her, although it does not altogether prevent her violence.

As the story begins, Roger Covenant has reached twenty-one, and has come to claim custody of his mother: custody which Linden refuses, in part because she has no legal authority to release Joan, and in part because she does not trust Roger. To this setback, Roger responds by kidnapping his mother at gunpoint. And when Linden goes to the hospital to deal with the aftermath of Roger's attack, Roger takes Jeremiah as well.

Separately Linden and the police locate Roger, Joan, and Jeremiah. But while Linden confronts Roger, Joan is struck by lightning, and Roger opens fire on the police. In the ensuing fusillade, Linden, Roger, and—perhaps—Jeremiah are cut down; and Linden finds herself once again translated to the Land, where Lord Foul’s disembodied voice informs her that he has gained possession of her son.

As before, several thousand years have passed in the Land, and everything that Linden knew has changed. The Land has been healed, restored to its former loveliness and potency. Now, however, it is ruled by Masters, *Haruchai* who have dedicated themselves to the suppression of all magical knowledge and power. And their task is simplified by an eerie smog called Kevin’s Dirt, which blinds the people of the Land—as well as Linden—to the wealth of Earthpower all around them.

Yet the Land is threatened by perils which the Masters cannot defeat. *Caesures*—disruptions of time—wreak havoc, appearing and disappearing randomly as Joan releases insane blasts of wild magic. In addition, one of the *Elohim* has visited the Land, warning of dangers which include various monsters—and an unnamed *halfhand*. And the new Staff of Law that Linden created at the end of *White Gold Wielder* has been lost.

Desperate to locate and rescue Jeremiah, Linden soon acquires companions, both willing and reluctant: Anele, an ancient, Earthpowerful, and blind madman who claims that he is “the hope of the Land,” and whose insanity varies with the surfaces—stone, dirt, grass—on which he stands; Liand, a naïve young man from Mithil Stonedown; Stave, a Master who distrusts Linden and wishes to imprison Anele; a small group of ur-viles, artificial creatures that were at one time among Lord Foul’s most dire minions; and a band of Ramen, the human servants of the Ranyhyn, Earthpowerful horses that once inhabited the Land. Among the Ramen, Linden discovers that the Ranyhyn intend to aid her in her search for her son. And she meets Esmer, the tormented and powerful descendant of the lost *Haruchai* Cail and the corrupted *Elohim* Kastenessen.

From Esmer, Linden learns the nature of the *caesures*. She is told that the ur-viles intend to protect her from betrayal by Esmer. And she finds that Anele knows where the Staff of Law was lost thousands of years ago.

Because she has no power except Covenant’s ring, which she is only able to use with great difficulty—because she has no idea where Lord Foul has taken Jeremiah—and because she fears that she will not be able to travel the Land against the opposition of the Masters—Linden decides to risk entering a *caesure*. She hopes that it will take her into the past, to the time when her Staff of Law was lost, and that Anele will then be able to guide her to the Staff. Accompanied by Anele, Liand, Stave, the ur-viles, and three Ramen—the Manethrall Mahrtiir and his two Cords, Bhapa and Pahn—Linden rides into the temporal chaos of Joan’s power.

Thanks to the theurgy of the ur-viles, and to the guidance of the Ranyhyn, she and her companions emerge from the *caesure* more than three thousand years in their past,
